

*a/cancel*

39. A method as in claim 26 wherein the parallel process converting the plurality of second parallel data streams into a plurality of second analog signals further comprises:  
encoding the plurality of second parallel data streams in a plurality of symbol encoders;  
and  
converting the encoded values into analog representations in a plurality of digital to analog converters.

#### REMARKS

Claims 26 through 39 have been added, claims 1 through 39 are pending in the application. No new matter has been added. By way of this amendment examination consideration of the application with additional claims 26 through 39 is sought.

If there is any difficulty with the present application or amendment applicant would appreciate a phone call to the attorney listed below.

Respectfully submitted,

CHRISTIE, PARKER & HALE, LLP
